

CONNECTATHON

Workshops 2009

Sharing Clinical Documents and Integrating Workflow
Practical Solutions from Integrating the Healthcare
Enterprise (IHE)

22. and 23. April 2009

at

**Remise
Engerthstraße 160 – 178,
1020 Vienna, Austria**

Optimal patient care requires efficient access to comprehensive electronic health records (EHRs). The Integrating the Healthcare Enterprise (IHE) initiative accelerates the adoption of information standards needed to support EHRs world-wide. More than 200 vendors have implemented and tested products based on IHE specifications.

A major contribution to the definition and the procurement of IT projects and solutions has been made by IHE through the cooperative development of use cases and technical specifications in the form of “technical frameworks” and “integration profiles”. Applications that support these specifications can be used to enhance communication within a hospital, a hospital group, a small or large community and on a global scale.

The workshop will show IHEs contribution to “Sharing Clinical Documents and Integrating Workflow” with special emphasis on “Practical Solutions from IHE”. The advantages and savings of effective implementation and improvement of IT systems in healthcare in the IHE way will be demonstrated and discussed.

The workshops will be in English language. Connectathon visits will also be offered in German language.

Updates regarding the program are visible under
www.ihe-austria.at

Please note that the number of participants is limited!

WORKSHOP PROGRAM

Wednesday, 22nd April 2009

Morning Experiences from regional and national XDS EHR implementations

08.30 – 09.00 **Registration**

09.00 – 09.10 **Welcome**
Jürgen Brandstätter, IHE Austria

09.10 – 09.30 **Introduction into IHE**
Charles Parisot, IHE Europe

09.30 – 09.50 **IHE in the national Austrian healthcare record project ELGA**
Alexander Schanner, ARGE ELGA, Austria

09.50 – 10.15 **EHR project in Gauteng**
Mmakgosi Mosupi, Gauteng Health Department, Chief Director of Information and Communications Technology, South Africa

10.15 – 10.45 **Coffee break**

10.45 – 11.00 **The European project epSOS – goals and use cases**
Peter Brosch, Ministry of Health, Vienna, Austria

11.00 – 11.15 **Discussion**

11.15 – 11.30 **Introduction to the Connectathon**
Peter Kuenecke, IHE Europe

11.30 – 12.00 **Connectathon visit**
Charles Parisot, IHE Europe

12.00 – 13.30 **Lunch**

WORKSHOP PROGRAM

Wednesday, 22nd April 2009

- Afternoon** Introduction and demonstration of IHE Profiles
Admission, discharge, transfer - information exchange between regional systems
- 13.30 - 13.45 **XDS Projects in the UK**
Nick Brown, IHE UK
- 13.45 - 14.00 **Use of XDS-I for cross vendor communication in Wales**
Dave Harvey, IHE UK
- 14.00 - 14.30 **Demonstration and IHE profile overview for use cases admission, transfer of patients and document registration**
IHE Member Companies
- 14.30 - 14.45 **How can IHE support my work as a "Technology Integration Manager" in a hospital**
Christoph Knoepfel, Technology Integration Manager at the Kantonsspital Aarau until 2.2009, now Abraxas Informatik AG
- 14.45 - 15.15 **Coffee break**
- 15.15 - 15.30 **Experiences with IHE in AT - procurement of radiology systems**
Dr. Peter Sögner, Sögner & Partner OEG, Dr. Hans Mosser, Landesklinikum Krems
- 15.30 - 16.00 **Demonstration and IHE profile overview for use cases transfer, document access, discharge, cross community communication**
IHE Member Companies
- 16.00 - 16.15 **Current and future development in IHE profiles**
Geert Claeys, IHE Europe Development Committee, Chair
- 16.15 - 16.30 **Discussion**
- 16.30 - 16.45 **Break**
- 16.30 - 17.30 **Regional and national XDS Implementers "Get Together"**
"Get Together" registration under: cat@technikum-wien.at
- 19.00 - 22.00 **Workshop Dinner**

WORKSHOP PROGRAM

Thursday, 23rd April 2009

- Morning** Introduction and demonstration of IHE Profiles
Experiences from hospitals and resident doctors - Exchange of information in cooperative care
- 08.30 – 09.00 **Registration**
- 09.00 – 09.15 **The European Project Epsos – Workpackages and ways forward**
Frederik Linden, epSOS program manager
- 09.15 – 09.30 **Using IHE in the exchange of laboratory orders in the Netherlands**
Andries Hamster, Forecare Netherlands
- 09.30 – 09.45 **LOINC in the Vienna regional hospitals: Experiences and clinical benefits - perspectives for CDA laboratory reports in Austria**
Wolfgang Hübl, Vienna regional hospitals (KAV), Austria
- 09.45 – 10.15 **Demonstration and IHE profile overview for distributed and personal care use cases and medical reports access**
IHE Member Companies
- 10.15 – 10.30 **"Clinical benefits of structured radiology reports in the Austrian EHR"**
Franz Frühwald, Resident Radiologist, St. Pölten, Lower Austria
Andreas Lindner, Lindner TAC, Austria
- 10.30 – 11.00 **Coffee break**
- 11.00 – 11.30 **IHE laboratory framework and IHE projects in France**
François Macary, IHE Laboratory Committee Co-Chair, France
- 11.30 – 12.00 **Demonstration and IHE profile overview for remote monitoring and cooperative care**
IHE Member Companies
- 12.00 – 13.30 **Lunch**

WORKSHOP PROGRAM

Thursday, 23rd April 2009

Afternoon Wrap up

- 13.30 – 13.45 **Introduction to the Connectathon**
Charles Parisot, IHE Europe
- 13.45 – 14.00 **Connectathon visit**
- 14.00 – 14.15 **e-Care project in Upper Austria – data exchange between hospitals, nursing homes and mobile care**
Benedikt Aichinger, X-tention, IHE user, Austria
- 14.15 – 14.30 **Use of XDS communities in telemedicine in the Veneto region**
Claudio Saccavini, University of Padua, Italy
- 14.30 – 15.00 **Coffee break**
- 15.00 – 16.00 **Workshop Summary: e-health and IHE – the big picture, state of things and perspectives, followed by panel discussion: How far have we got and what lies ahead of us in the coming years?**
IHE Austria
- 16.00 – 17.00 **Connectathon visit**
Charles Parisot, IHE Europe
